Art Unit: 1637

1. Applicant's election without traverse of Group I, claims 1-12, 16-27, and 31-38, in the reply filed on 11/24/03 is acknowledged.
2. Claims 13-15, 28-30, and 39-46 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 11/24/03.
3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
4. The specification is objected to because of the following informality: the continuation information at the beginning must be updated to indicate issue of parent application 08/973,131 as U.S. Patent No. 6,326,166.

Art Unit: 1637

5. Claims 34-38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims are confusing because of the language "in which the target gene is an endogenous" in claim 34. Clarification is required.

6. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-12, 16-27, and 31-38 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 9 and 22 of U.S. Patent No. 6,326,166. Although the conflicting claims are not identical, they are not patentably distinct from each other because of a genus-species relationship. That is, the "transcription regulatory domain" in the instant claims is encompassed within the genus of the "additional domain" in the patented claims.

Art Unit: 1637

7. Claims 1-12, 16-27, and 31-38 are free of the prior art, but are rejected for other reasons. No claims are allowable.
